KENS OF THE RAILROADS. fatest Information of Interest From All

A Boston despatch says: Mr. John M. Forbes. ene of the directors of the Union Pacific, who the system, said in an interview concerning he railroad situation west of Chicago: "Ballway ma ters are a good deal shaken up. There are thousands of millions of property

The Inter-State Commerce law has done nothing but harm. When philanthropy or politics undertake to manage business they always make a mess of it. Railroading is like every other business, if it is left alone it will regulate itself all right. The rate cutting in the West will have to stop some time. There isn't the least reason for it in the world. There is more business than all the roads can attend to. Cars are scarce, and everything would recommend a stiffening instead of a cut in tates. I hope we shall get back to business principles soon. The Western roads are pow just where the Eastern roads were a few years

The Chicago Tribune says the Chicago, Rock Island and Pacific and the Chicago, Milwaukee sad ht. Paul railroads have formed a traffic mance with the Union Pacific similar to that gisting between the Union Pacific will cand Chicago and Northwestern. Under the new agreement the Union Pacific will pro rate with the Book Island at all points where the two roads sonnect. On business to points west of Denvirthe Rock Island is to have its full proportion to Denver, and on east-bound business the Union Pacific allows the Rock Island the same proportion of rates as it allows the Northwestern. The Milwaukee and St. Paul evidently shares with the Rock Island the benefits of the new agreement, as it is understood to have made attraffic agreement with the Rock Island and Union Pacific, whereby the former gets its business from the Missouri to Penver, and the latter from Omaha to San Francisco and Oregon. The new agreement is to Penyer, and the latter from Omaha to San Francisco and Oregon. The new agreement is adhently a part of the Gould-Vanderbilt scheme to force all Western roads into their proposed big combine. The Burlington has that far shown a spirit of independence, and to force it to terms the arrangement with the stock island and other roads was made.

Late in the day it was agreed to appoint a committee to endeavor to reach a plan of compromise, and report of Dec. 4. The committee is composed of Results. Finley, Ripley, Newman, and Renters. Heantime the lightington and Northern will suspend its application for an open reduction.
